VIII. INTRASTATE NETWORK SERVICES LOCAL ACCESS SERVICE (CONT'D.)

3.0 OTHER NON-RECURRING CHARGES. In addition to the rates set forth above, the following non-recurring charges also apply to the following services:

- 1.1. Intrastate Analog Local Access
- 1.2. Intrastate DS0 (Hubless) Access
- 1.3. Intrastate T1 Digital Access
- 1.4. Intrastate DS-3 Local Access
- 1.5. Intrastate Sonet Access

3.1 Intrastate Administrative Non-Recurring Charges

3.1.1. Definitions. As used in this section, the following definitions apply:

Accelerated Expedite: A service order that is processed, at the request of the Customer, with the objective of installing the service in five (5) or fewer business days, whether or not installation is completed in that time period. An accelerated expedite charge will apply to dedicated access service and be assessed on a per circuit basis. For Customer-provided access, the standard Expedite charge will apply as specified in the table below. Service orders requiring construction prior to the installation of service, either on-net or off-net, could result in extended delays even in instances where an Accelerated Expedite charge applies.

Administrative Change: The modification of an existing circuit, at the request of the Customer, that involves changes to Customer name, Customer contact name, Customer phone number, verification of testing performed by parties other than the Company, service rearrangements not involving a physical change and/or any other administrative change not covered by a Billing Record Change.

Billing Record Change: A change in Customer billing address not involving physical retermination of the circuit.

Cancellation of Order: A (i) Customer-initiated request to discontinue processing a service order, either in part or in its entirety, prior to its completion, excluding requests resulting from the Company's determination of the unavailability of facilities to complete the order and/or (ii) discontinuance by the Company of processing a service order resulting from a Customer request to defer installation for a period longer than 30 days. Cancellation of order charges will not apply to circuits for which the Customer reinstates the same service order within 30 days of requesting discontinue processing the order. Cancellation of Order charges will be assessed per cancelled circuit or port per order. Standard Expedite Charges will apply in addition to any cancellation of order charges if Customer cancels an Accelerated or standard Expedite order before installation.

Expedite: A service order that is processed, at the request of the Customer, with the objective of installing the service in a time period shorter than the Company's standard installation time period for that service, whether or not installation is completed in that time period. An expedite charge will be assessed per circuit, per port, per order and/or per device depending on the service as specified in the Charges section below. Service orders requiring construction prior to the installation of service, either on-net or off-net, could result in extended delays even in instances where an Accelerated Expedite charge applies.
